

Elite Control Systems does not tolerate any activities to criminally facilitate tax evasion in either the UK or overseas jurisdictions. Tax evasion is illegal, it can damage the communities within which we operate and undermines business trust. As such Elite Control Systems believes it and the management of all Elite Control Systems businesses should set the right culture to underline the importance of understanding and fully adhering to this Policy.

Elite Control System will implement and maintain appropriate controls (preventative and detective) to reinforce the fact that it does not tolerate tax evasion or its facilitation. The operation of those controls is the responsibility of all management and will be reviewed by our control functions.
